

Dave Eichelberger

Vice President, Government Services
Christopher B. Burke Engineering, LLC

Dave Eichelberger serves as Burke's vice president, with a focus on government services.

An Indiana native, Dave is well-acquainted with the waterways and land that serve as Burke's project sites. His 37 years of experience with regulatory agencies means he can anticipate project needs and address potential issues before they become problems. He has designed award-winning projects that continue to serve as excellent examples of sustainable design.

Dave is a member of the advisory committee of the Association of State Dam Safety Officials and also an active member of the American Society of Civil Engineers.
