

FARM SUCCESSION WORKSHOPS

- Cultivating Transition -

November 10-12, 2026 | 9 a.m. - 3 p.m.

The future of your family's farm starts with a conversation today.

Your family farm represents generations of hard work, values, and vision. Taking the next step in your farm transition plan can feel overwhelming—but you do not have to do it alone.

INAgLaw invites farm families to participate in an in-depth, day-long workshop designed to help families begin meaningful conversations and make progress toward a successful farm transition.

► Designed for the whole family:

This workshop is ideal for farm families ready to bring “multiple generations” together to discuss the future of the operation. Through guided sessions and dedicated family work time, you will have space to explore ideas, identify priorities, and move your transition planning forward.

► What you can expect:

- Practical, thought-provoking sessions on farm succession and transition planning.
- Guidance for starting and navigating important family conversations.
- Tools and ideas to help shape your family's transition plan.
- Dedicated time for your family to meet privately and work through next steps.
- A personalized, hands-on learning experience in a small-group setting.

► Facilitated by Clint Fischer Attorney | Legacy Matters

Clint Fischer is a South Dakota attorney who specializes in helping farm families navigate the succession process. He brings practical experience and a family-centered approach to the challenging decisions involved in transitioning a farm to the next generation.

► Program Dates:

- November 10 - INFB office, Indianapolis
- November 11 - Huntington University
- November 12 - Vincennes University

► Time: 9 a.m. - 3 p.m.

► Cost: \$100 per family farm

► Space is limited:

To preserve the personalized nature of the workshop, attendance is limited. Maximum of 6 families for each program.

► Interested in Attending?

Contact John Shoup, Director, INAgLaw at jshoup@inaglaw.org or (317) 692-7801 to discuss the workshops or register.
