Solar Lease: Life of Project

Solar Lease: Decommissioning

Repair

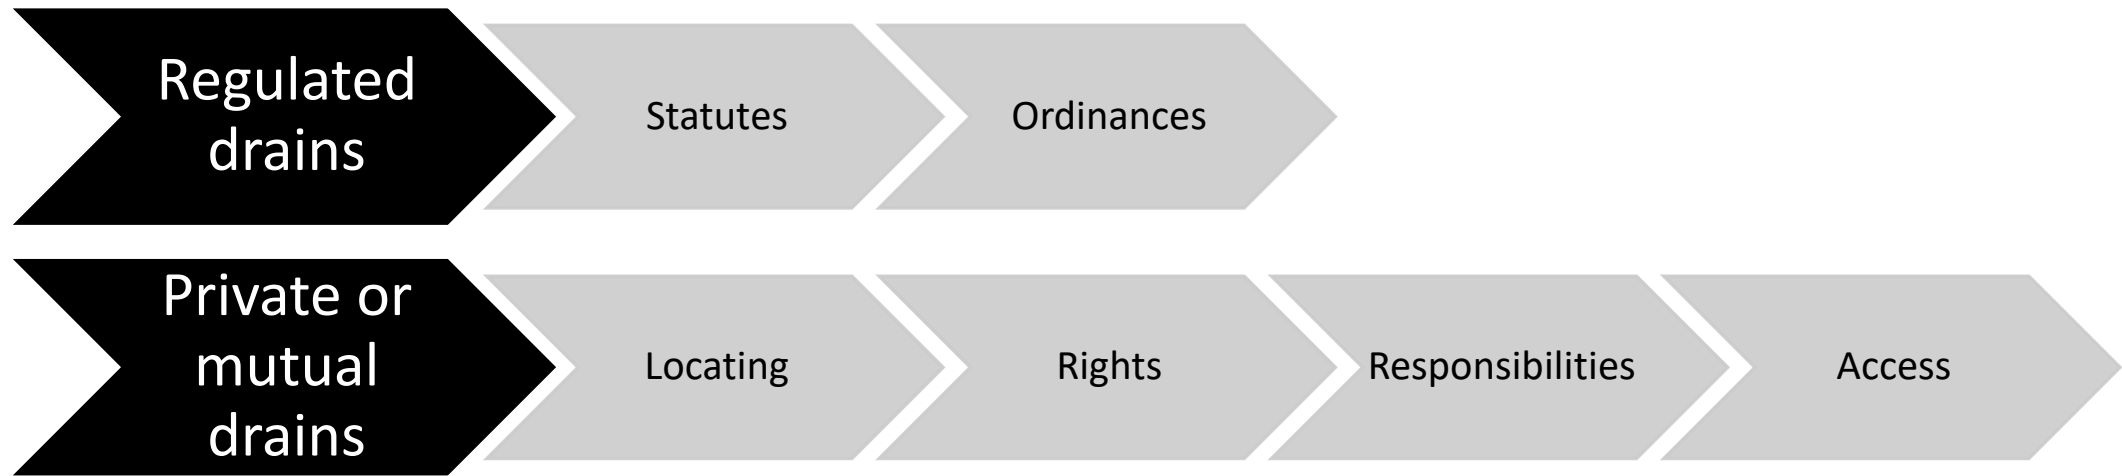

Rebuild

Restore

Topographic changes

Map

Solar Lease: Neighbor Impacts

County Ordinances

An aerial photograph of a large-scale solar farm. The solar panels are arranged in long, parallel rows, following the contour of a hill. The panels are dark blue, and the mounting structures are silver. The farm is situated in a rural area with green fields, dense forests, and rolling hills in the background. A dirt road runs alongside the solar farm, and a few vehicles are visible at the bottom left. The sky is clear and blue.
